To: Peter Butler[butlerpeter2@gmail.com] Schmittdiel, Paula[Schmittdiel.Paula@epa.gov] Cc: From: Way, Steven Sent: Fri 4/3/2015 2:15:18 PM Subject: Red and Bonita Mine Bulkhead and April Mtg Peter, The days have gotten away from me in terms of returning your call. So, I wanted to send a quick note, but I am happy to talk next week if you would like to discuss this more. In short, the following updates are provided in answer to your voicemail questions: 1. Red and Bonita bulkhead planning is underway and we have budgeted that work for this year. The bulkhead design includes a piping component to allow for potential future injection of insitu treatment reagents. Gold King Mine adit rehab work is also scheduled for this year. I have discussed this with Todd Hennis also. I do not have plans to attend the April 28th ARSG meeting, but Allen Sorenson, DRMS and I have set aside the time in May to attend the ARSG meeting and go over the design and plans for the R n B, etc. Please let me know the date for the May ARSG meeting. If you would like to discuss this further, please let me know a time next week that I could call you. Sincerely, Steve Steven Way Federal On-Scene Coordinator
